

Homework 04 - AI Automation Testing

- **Sinh viên:** Nguyễn Tấn Thắng
- **MSSV:** 23127259
- **Nhóm:** 08
- **Repository:** <https://github.com/hungtmh/HW04-TESTING>
- **SUT:** EShop - React Web, React Admin, Node/SQLite API

Self-Assessment Grade

No.	Criteria	Maximum	Current self-assessment	Evidence
1	Task 1 - Feature A: FR-02	25	25	tests/fr02-login.spec.js , 3 browser reports
1	Task 1 - Feature B: FR-07	25	25	tests/fr07-cart.spec.js , 3 browser reports
1	Task 1 - Feature C: FR-16	25	25	tests/fr16-import-csv.spec.js , 3 browser reports
2	Task 2 - Demo video	15	0	Chưa quay/upload; kịch bản và checklist đã sẵn sàng
3	Agent Skill	10	7	Skill hợp lệ và đã validate; chưa có video demo skill
	Total	100	82	Không khai 100 khi chưa có video thật

Verified Test Summary

Kết quả được lấy từ ba file `playwright-report/*-summary.json` sau lần chạy ngày 2026-08-24.

Feature	Unique cases	Normal Pass/browser	Intentional @bug Fail/browser	Browsers	Unexpected failures
FR-02 Login/Lockout	16	6	10	Chromium, Firefox, WebKit	0
FR-07 Shopping Cart	17	11	6	Chromium, Firefox, WebKit	0
FR-16 Admin Import CSV	12	7	5	Chromium, Firefox, WebKit	0
Total	45	24	21	9 browser runs	0

Across the complete browser matrix: **135 executions = 72 Passed + 63 intentional @bug Failed + 0 unexpected Failed**. The 21 failing test cases map to **20 unique SUT defects** because the malformed-email and wrong-email-type assertions share one root cause.

Deliverable Map

- Main report: `report/HW04_Main_Report.md` and `.pdf`
- Bug report: `bug-report/BUG_REPORT.md` and `.pdf`
- AI audit and critique: `ai/` in Markdown and PDF
- Git log: `evidence/git_commit_log.txt`
- Report screenshots: `evidence/report-screenshots/`
- Multi-browser reports: `playwright-report/fr02-*`, `fr07-*`, `fr16-*`
- Agent Skill: `agent-skill/eshop-automation/`
- Video scripts and recording checklist: `video-script/`

Reproduction Commands

```
npm install
npx playwright install chromium firefox webkit
npm run test:multibrowser:all
node scripts/verify-report-banner.mjs
```

Items Requiring Student Authorship

The homework prohibits fabricated execution evidence. The following must be completed by Nguyễn Tấn Thắng personally before submission:

1. Record the Vietnamese demo with voice and face-cam or visible `whoami` + `hostname` .
 2. Upload it as an unlisted YouTube video of at least five minutes and add the URL here.
 3. Record the Agent Skill demonstration and add its URL here.
 4. Create GitHub Issues with screenshots for the confirmed defects and open/merge a real Pull Request for these changes.
- **Main demo video:** NOT RECORDED YET
 - **Agent Skill video:** NOT RECORDED YET
